

July 4th Sprite Cake

- 1 box white cake mix
- 1 can diet 7-Up or Sprite (I use zero sugar)
- 1 box sugar-free Jell-O
- Fat-free Cool Whip

Mix cake mix with can of soda. Place in 9"x13" baking pan.
Bake per direction on the cake mix box. Let cool slightly.

Using the end of a spoon, poke holes in the cake.

Mix Jell-O according to package using 1/2 the amount of water called for on the box. Pour Jell-O over cake.

Top cake with fat-free Cool Whip. Refrigerate at least one hour before serving.

**This recipe can be made with a dark cake mix and a dark soda, as well.*
