PRODUCTS

THAT SHINE!

Despite the transition to social media and online photos, I still delight in producing tactile prints and other tangible products - items that will be handled and treasured over years in a way that cannot be done with digital files.

Here at Christy B Photography we strive to bring our clients the highest quality products on the market that will stand the test of time. This guide will showcase the senior portrait products we have handpicked to offer to our clients. However, nothing compares to seeing our products in person. For this reason, we hold Premiere Image Reveal Ordering Sessions in our studio where you can touch and hold our product samples and see in person the quality of product you will be receiving before you place an order.

We do still understand the desire of some to have their digital files so we offer digital options, as well.

I hope you enjoy looking through the products we offer and I look forward to the opportunity to create artwork for you to show off to friends and family, present and future.
